SKILLS

FRONTEND

- React.js
- Vue.js
- HTML5 / CSS3
- JavaScript (ES6+)

BACKEND & DATABASE

- Python
- MySQL
- REST APIs
- Machine Learning
- XGBoost
- Scikit-learn
- Generative AI
- SMOTE / Imbalance Handling

CS FUNDAMENTALS

- OOP Concepts
- Data Structures
- SDLC / STLC
- Git & GitHub
- Agile Basics

PROFESSIONAL SUMMARY

Results-driven Computer Science graduate (2025) with hands-on experience in frontend development (React.js, Vue.js) and machine learning (Python, XGBoost, Scikit-learn). Proficient in OOP concepts, Git version control, and SDLC/STLC practices. Holds Oracle certifications in Generative AI and Data Science. Passionate about building impactful, real-world solutions and eager to contribute in a dynamic, collaborative environment.

EXPERIENCE

Frontend Intern

Sept 2023 – Nov 2023

Leanafy

- Developed and enhanced frontend features for web applications using Vue.js.
- Collaborated with design and backend teams to implement responsive, user-friendly interfaces.
- Followed SDLC practices — from requirement gathering to testing — improving functionality and user experience.

PROJECTS

Interactive Video Search

React.js | YouTube Data API

- Built a responsive YouTube clone with search, video playback, and recommendations using the YouTube Data API.
- Implemented client-side routing, dynamic video pages, dark/light mode; applied OOP-structured component logic.

Pokémon Search Engine

Vue.js | Axios | REST API

- Created a dynamic search engine for Pokémon data using Vue.js integrated with the PokéAPI via Axios.
- Designed reusable, component-based UI with clean state management and async API error handling.

ML Approach for Autism Syndrome Prediction

Python | Scikit-learn | XGBoost | SMOTE

- Developed a lightweight ML diagnostic tool to screen autism risk using behavioral and demographic data.
- Applied and compared Decision Tree, Logistic Regression, and XGBoost; handled class imbalance with SMOTE.
- Achieved >90% accuracy; followed end-to-end ML pipeline from pre-processing to model evaluation.

Traffic Prediction using ML

Python | Random Forest | REST API

- Built a Random Forest Regressor to predict traffic delays using time, weather, and historical traffic features.
- Achieved low MAE with real-time API-driven predictions; applied full ML workflow from data cleaning to evaluation.

EDUCATION

B.Tech in CSE

2021 – 2025

Presidency University, Bengaluru, Karnataka | CGPA: 7.39

Class XII

2020 – 2021

Kendriya Vidyalaya, Nagpur, Maharashtra | 79.2%

Class X

2018 – 2019

Kendriya Vidyalaya, Tezpur, Assam | 75.6%
